

Jordan Heersink

Full Stack Web Developer

Profile

Full-stack web developer seeking to apply eight years of previous IT expertise to the web. Proficient at taking end users' needs and transforming them into workable solutions to fit their style. Able to listen to non-technical users' requests and translate them to a team of highly technical developers to work on solutions. Have a love for technology, learning, and problem-solving. Looking to bring a commitment to excellence and a hard work ethic to a company and become a valuable asset.
